# 1. Overview

This document describes the WagoIPCLib V1.0 release.

The library in this release has been built with CDP 2.3.1.0 and will only be guaranteed to work with that version of CDP.

The WagoIPCLib V1.0 release is equal to the previous release except for the changes described in this document. All modifications that were included in the previous release are also included in this release.

# 2. Change log

This chapter lists changes included in V1.0 compared to previous releases.

## 2.1. Changes in V1.0

ICD Bug #	Description
	<b>Initial official release</b> This is the first official release of the WagoIPCLib as a separate library component.

*Table 1 - Changes in V1.0*

# 3. Files

The following files constitutes V1.0 release.

Filename	Time stamp	Version	Description
WagoIPCLib.h WagoIPCLibBuilder.h ModelSource/PC19030Defines.h ModelSource/WagoIPCIO.h		1.0	C++ header files for using WagoIPCIO.
Libs/WagoIPCLib_Debug_RTOS.lib Libs/WagoIPCLib_Release_RTOS.lib		1.0	Debug and release libraries for Visual Studio 2002,2003,2005 and 2008.

*Table 2 - Files*

## 4. Installation

Install the library using the WagoIPCLib 1.0 Setup (RTOS-32 v5.12).exe. Follow installation instructions.

## 5. Known limitations

### 5.1. Known limitations

- No support for complex modules

### 5.2. Known bugs

ICD Bug #	Description

## 6. Technical Support

Your feedback is very important to us. To receive technical support for the products described in this document, please contact us at [support@icd.no](mailto:support@icd.no). At [forum.icd.no](http://forum.icd.no) you will also find a lot of useful information, like Frequently Asked Questions and topics regarding CDP, installation, C++, I/O, Linux, RTOS and Web.

## 7. Copyright and legal information

- For copyright and license information, see the license agreement that was provided with CDP.
